Where European craftsmanship meets the rhythm of everyday life. Sinks, taps, and accessories designed to elevate your kitchen and perform beautifully, year after year.

Our Philosophy

A kitchen fixture should do its job beautifully and reliably.
Nothing more. Nothing less.

We design with restraint and manufacture with precision. Every curve, finish and component serves a purpose. No unnecessary features. No decorative excess. Just functional elegance crafted in-house to fit seamlessly into modern living spaces. This intentional approach shapes everything we do. From material selection to final inspection. Premium quality and consistent excellence at every step.

Pure.Sink: designed with intention, made with precision.

Premium Quality Built to Last

Our Story

Built Different

Pure.Sink was founded with a clear mission: To create premium kitchen fixtures without the premium markup. We combine European design sensibility with professional-grade manufacturing.

Our stainless steel sinks are crafted from high-quality 304 steel, available in pressed designs for seamless construction or handmade for distinctive character.

Our bio-fiber sinks offer a sustainable alternative without compromising durability or aesthetics.

Every tap features European ceramic cartridges, Neoperl aerators, and PVD coating as standard. These aren't upgrades, they're the baseline.

Our headquarters in Bulgaria keeps us agile and efficient.
Our warehouses across Europe ensure reliable delivery throughout Europe.

What We Stand For

European Design

Clean lines.
Modern aesthetics.
On-trend finishes.
Designs that belong in today's kitchens.

Quality Materials

304 stainless steel.
Bio-fiber composites.
PVD coatings.
We use what works and what lasts.

5+ Years Warranty

We stand behind everything we make.
Function and appearance, covered.

Professional Components

Ceramic cartridges. Neoperl aerators. The same components found in fixtures costing twice as much.

Complete Coordination

Taps, sinks, soap dispensers and accessories all available in matching finishes.
One brand, one look.

Stainless Steel Sinks

Pure.Sink Prestige Pressed, 10 mm radius Stainless Steel Sinks

Warm elegance and unique style

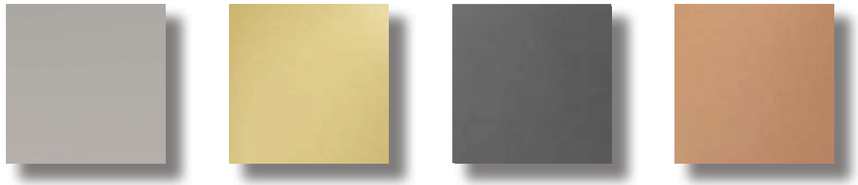

Pure.Sink Prestige brings together refined elegance and lasting durability in a pressed design, available in four modern colours. With three versatile installation options and premium accessories, these sinks fit seamlessly into the latest interior trends while reflecting your unique style. Elevate your space with a statement of quality and contemporary sophistication.

Characteristics

- Four modern colours – stainless steel, gold, gun metal, copper
- Pressed design for maximum stability
- Single and double sinks
- Three installation options
- Premium accessories

Four modern colours

stainless steel | gold | gun metal | copper

High-quality material

High-quality stainless steel with 1 mm thickness with a solid PVD coating for the gold, gun metal and copper sinks.

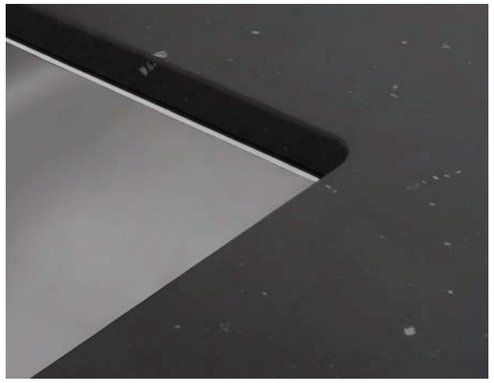

PVD coating advantages:

- solid coating;
- resistant to most cleaning agents;
- does not oxidise;
- shiny, wafer-thin top layer;
- scratch-resistant;
- environmentally friendly.

Pure.Sink Luxion Handmade Stainless Steel Sinks

Sophistication for timeless interiors

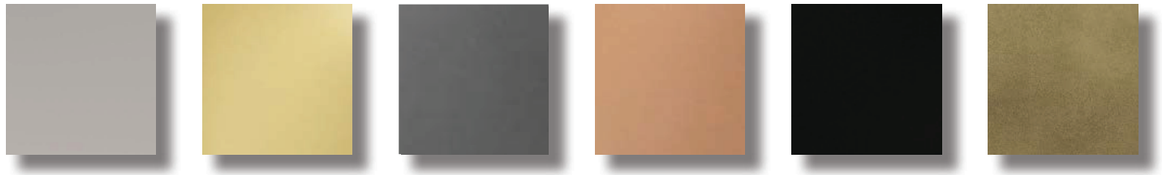

Handmade from high-quality stainless steel, Pure.Sink Luxion sinks feature a signature envelope-style bottom and an elegant one-way brushed finish. Offered in six trend-driven colours, they merge contemporary design with enduring quality. A refined choice for interiors that value both craftsmanship and modern aesthetics.

Characteristics

- Six modern colours – stainless steel, gold, gun metal, copper, black, antique bronze
- Handmade sinks
- Single models with or without tapwing
- Three installation options
- Premium accessories

Six modern colours

stainless steel | gold | gun metal | copper | black | antique bronze

PVD coating and a distinctive bottom shape

High-quality stainless steel with 1 mm thickness with a solid PVD coating for the gold, gun metal, copper, black and antique bronze sinks.

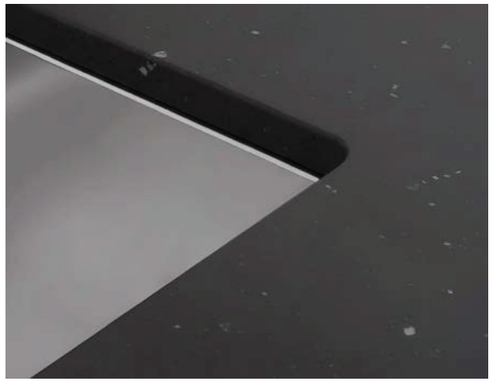

PVD coating advantages:

- solid coating;
- resistant to most cleaning agents;
- does not oxidise;
- shiny, wafer-thin top layer;
- scratch-resistant;
- environmentally friendly.

3-Way Kitchen Faucets with Integrated Water Filtration Style, Convenience & Clean Drinking Water

3-way kitchen faucets offer a smart, space-saving solution by delivering both regular tap water and filtered drinking water through one single fixture. Thanks to a dedicated channel and separate control lever for filtered water, you enjoy fresh, clean water directly at the sink — without the need for an additional tap.

Key Advantages

Filtered water on demand: A separate internal pipeline ensures purified water never mixes with regular tap water.

One faucet, dual function: Eliminates the need for a second filtration tap, keeping your countertop clean and uncluttered.

Modern, practical design: Options such as a flexible silicone spout or pull-out spray enhance reach and maneuverability for everyday kitchen tasks.

High-quality materials: Built from durable 304 stainless steel for superior corrosion resistance and a long lifespan.

Long-term peace of mind: Backed by a 5-year manufacturer warranty.
